---> Comment Text :

- 1 [I am writing to you to express my great concern about the proposed burial of nuclear waste in Yucca Mountain, Nevada. From all that I have read about the project, it seems quite clear that it poses a serious threat to the environment and all those who dwell in its vicinity. The various studies conducted seem to suggest that the long-term effects are dangerous and not really known. The native people who will suffer the imposition of this project surely must be given greater voice in the decision.]
- 2 [I urge the Depart of Energy to extend the period in which public comment is solicited] and to refrain from preferring short-term profit to the life of this planet.
-
